WORK EXPERIENCE

LeanTaaS, Product Designer
Oct 2021 - Present · Seattle (Remote)

Led the design process of surgery scheduling software from discovery to launch — boosting operational performance for healthcare providers and increasing feature adoption by 175%.

Jitta Wealth, Product Designer
Jun 2020 - May 2021 · Seattle (Remote)

Led the design of thematic investment and referral program for wealth management mobile app, driving $200M asset under management increase. Partnered with business and data teams to measure success and establish data-driven design practices.

Autodesk, Product Design Intern
May - Sep 2019 · San Francisco

Researched form creation process through user interviews and concept tests. Designed form customization web app, simplifying workflow and eliminating reliance on third-party software for workers in construction industry.

PlanGrid, Product Design Intern
Sep - Dec 2018 · San Francisco

Revamped the design and experience of user and software license management portal by creating user flow diagram, protyping web interfaces, and performing usability tests.

OTHER EXPERIENCE

UW/UX, Design Mentor
Nov 2019 - Jul 2021 · uwux.ca

Facilitated design workshops and mentored junior designers at the University of Waterloo.

EDUCATION

University of Waterloo, Systems Design Engineering (BASc)
Class of 2020
