Work Experience

Hack The North, Product Designer
Mar 2019 — Feb 2020 | Waterloo, Canada

Designed a unique comic-themed application portal, supported over 7,000 applicants from 30 countries for Canada's biggest hackathon

Worked with cross-functional teams to gather requirements and design QR scanner tool used to check-in over 2,000 attendees during the event

Autodesk, Product Design Intern
May — Aug 2019 | San Francisco, USA

Researched form creation workflows and performed concept tests to understand users' mental models on 3 different concepts

Initiated the development of custom form builder by analyzing research findings and presenting design recommendations to the product team

PlanGrid, Product Design Intern
Sep — Dec 2018 | San Francisco, USA

Redesigned Admin Console and introduced in-app license purchase to solve license purchasing issues identified during usability tests

Revamped information architecture of setting pages and established reusable design patterns, reducing development time by 50%

Nulogy, Product Design Intern
Jan — Apr 2018 | Toronto, Canada

Conducted user interviews and created a user journey map to redesign the order picking feature, increasing efficiency in warehouse operation

Examined shipping workflow to design an audit trail feature, enabling contract packagers to meet the FDA regulatory compliance

Liquor Control Board of Ontario, UX/UI Design Intern
May — Aug 2017 | Kitchener, Canada

Designed an online craft beer ordering system and a tasting note data collection mobile application to eliminate pain points from manual processes, reducing task completion time by 85%

Roundabout Canada, Web Development Intern
Jan — Apr 2016 | Toronto, Canada

Increased $17,000 monthly revenue and improved Google search ranking from 19th to 8th by redesigning and developing the company website using HTML5, CSS3, and Bootstrap
